

Create Your Roadmap to Lubrication Best Practices TODAY and Receive 20% off Onsite Training

Convert lubrication from a cost center to a PROFIT center

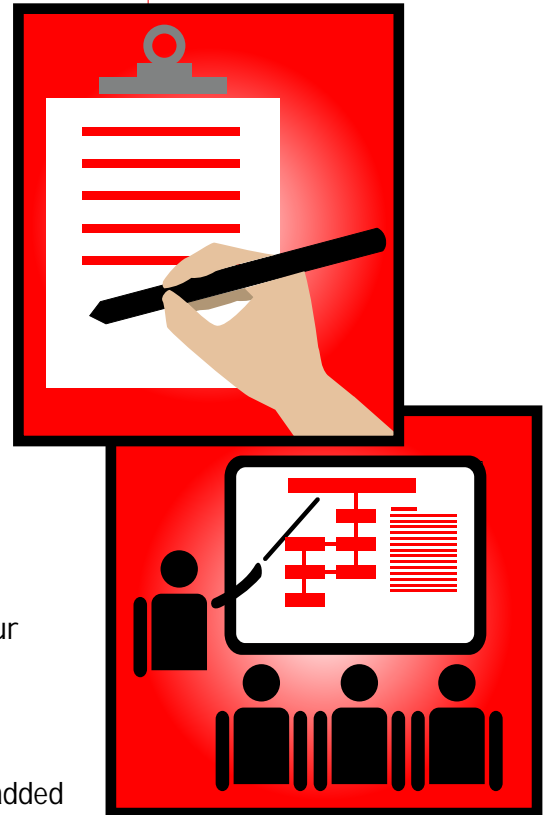

Trico Predict's fully integrated service team can benchmark your current lubrication program against industry best practices. Our expert service team will then create the roadmap for your success. By following our step by step procedures, your lubrication program will be of industry best practice caliber. Benefits that have been attained by improving plant lubrication programs are:

- Decrease equipment downtime
- Higher plant availability
- Reduced maintenance costs
- Effective utilization of resources

If you are committed to making a change in how you manage your plant lubrication program, we are ready to assist.

Need more reasons to start your journey to excellence? Sign an assessment contract with Trico Predict before 3/31/10 and as an added **BONUS** you will receive a 20% discount on your next onsite training course presented before 12/31/10.

Call Jeff Tindall today at 414.617.5869 with the code WEB3L0 to learn how we can provide you with total lubrication management solutions.

Receive **20% off** onsite training when you order an assessment.
